SUMMER EXPLOSION

Summer Explosion is a very unique week of camp that presents creative challenges to campers that help create opportunities for creativity, problem solving, cooperation, and most of all, FUN!

A typical SE day is broken down into activity periods which vary in approach and purpose.

LARGE GROUP GAMES: We begin each day with exciting large group games that foster teamwork and friendship. All of the games have creative twists that make them fun and challenging for the campers.

DESIGN CHALLENGE: We place a big emphasis on creative design. Placed in small groups, but still part of a larger team, campers must work together to meet the given design challenge. All challenges evoke creative thinking, problem solving, communication, and risk taking. These challenges typically culminate at the end of the week in some "friendly" competition where campers show off their designs and test their abilities to meet the proposed challenge.

TEAM CHALLENGE: The team challenge time consists of activity-based challenges. These challenges promote greater cooperation, teamwork, and communication as teams work together to accomplish the task.

COMPUTERS: Campers enjoy the airconditioned computer lab!

SWIM: Each day, campers enjoy the beautiful 8-lane, 25-meter indoor pool. The indoor pool is a relaxing and refreshing part of our camp day.

The camp day begins at 8:45 a.m. and ends at 3:15 p.m.
